JWDA pendant is part of a series of lamps inspired by traditional oil lamps. The lamp is made from honest materials – concrete and brass – ennobled by the refinement of its design.

Simplified and reduced of clutter to its essence, JWDA is minimalist lamp – but with a strong character. Its roundedness expresses warmth and friendliness. The lamp represents a study in the contrasts between the raw character of the concrete, the delicate glass and refined brass. Unusually for a pendant lamp, JWDA features a dimmer switch on its base, a practical function that makes this a perfect pendant to hang over a dining table or office desk.

## About the Designer

Jonas Wagell is a Swedish architect and designer based in Stockholm. His work has come to be known for simplistic playfulness and clever compact living, with recent collaborations reaching as far as China, Taiwan and North America. The studio's architecture work is mostly known for the prefab house concept, 'Mini House', which has previously been recognized by Wallpaper\* magazine naming him one of the 'World's 50 hottest young Architects' in 2008. Today, their work is primarily focused on product design and creative direction for clients around the world.

The Tribeca series is a mix of lamps, pendants and chandeliers, all inspired by the New York City glamour of the late 1930s. The name Tribeca refers to a very popular part of New York in lower West Manhattan, the triangle below Canal Street. The various shapes and designs in the Tribeca series were created in an inspiring creative process where Søren Rose travelled the States, searching for beautiful old lamps and reusable parts to create each unique piece. Collister Table Lamp, forms the latest addition to the series, taking inspiration from the Duane pendant.

## About the Designer

Søren Rose is a talented Danish entrepreneur and designer with a past in creative direction within the web and photography industries. His dream of having his own studio came true in 2008 and today he lives in New York where he operates the highly popular Søren Rose Studio. The team encompasses an incredible skill set within architecture, product design and manufacturing. They run a flat organisation, meaning, if the junior designer has the best idea, that's what they go with. Worshipping high quality and sustainable materials, the studio approaches their work with both traditional and innovative craftsmanship.
