

## TIPO

The Tipo chairs, designed by Taku Kumazawa for Aichi, are manufactured from 100% recycled materials, making them 100% recyclable. TIPO is a collection of high density multi-purpose stacking chairs and stool. TIPO is available in red, white, black or light grey and also allows the choice of three different backs and two different seats. Weighing only 3.5kg, TIPO has the ability to stack 40 high and incorporates a linking device within the sled base. Tipo is now available with 4 legs either on glides or castors and is also available with an optional writing tablet and/ or seat pad. The aesthetics, comfort and functionality of the amazingly light weight TIPO range sets a new direction in the evolution of stacking chairs.

### FINISHES AND COLOURS

Mesh/ Polypropylene (PP) seat and back finishes with matching colour powdercoat base (chrome base also available).
