

UNDER THE BELL PENDANT LAMP – US VERSION

ISKOS-BERLIN ON THE DESIGN “Under The Bell is more than just a lampshade—when situated over a table or in an open space, the bell-shaped light creates its own space within the environment. As such, the design embraces and shelters the people underneath, both in a physical and abstract manner, for an intimate atmosphere. The design is made using fibers from recycled plastic bottles that, along with its unique shape, enables Under The Bell to absorb sound and improve the acoustics of any room.”

CATEGORY

Pendant lamp

ENVIRONMENT

Indoor

COUNTRY OF PRODUCTION

Germany

DESCRIPTION

Under The Bell is a pendant lamp that is multi-functional as the design not only provides an ambient light but also enhances the acoustics of the room. With its raw, tactile texture that comes from its shade being produced using recycled plastic felt, Under The Bell is an example of modern design with hints to Scandinavian values. The design blends effortlessly into open spaces within any home, restaurants, hotels, workplace and education institution.

PRODUCTION PROCESS

Large sheet of PET material is heated in a mould and pressed into its shape.

MATERIAL

Shade made in up to 60% recycled plastic fibers, rubber cord.

CORD LENGTH

500 cm / 197"

BULB INCLUDED

No
