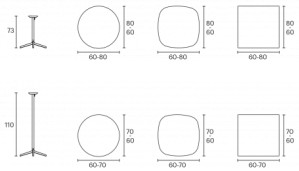
Lacquered structure.
Top in HPL or Fenix.

Measures



Accessories

Transport trolley

Pile table offers a unique folding mechanism that allows to fold and store it intuitively. Its 4-star aluminium structure polished or lacquered in any of our colours is designed for an easy stackability. All that makes Pile a perfect option for dynamic environments both indoor and outdoor. Besides, it is available in two heights and with circular, square and rounded square table tops with different finishes.
